This course is very useful and can learn efficiently by memorizing the letters which has given hand cards and material, especially online training is ~~the~~ immensely helpful those who ~~doesn't~~ even know the basics we can learn without instructor on online MISJ Program. I did not find enough time to attend classes, although I learned through online course.

Suggestions:

- more Face to Face teach.
- more conversations.
- more exercise.

The thing that struck my attention on this program is how progressive it is. It feels like curtains being opened day by day to the Japanese window. It makes sure you master the basic before you go to another level. If you are willing to do the whole program, with little effort you will speak Japanese. A routine is, however, required to make a learning path.
